## COMMUNIQUÉ DE PRESSE

---

Les Ulis, April 28th 2016

### A NEW \$6M MILITARY LASER CONTRACT

The QUANTEL Group has received new orders for military lasers for a fixed amount in excess of \$6 million, to be delivered over 3 years.

These orders are in addition to those already received in 2015, for about \$7 million (see the press release dated May 12, 2015, at [www.quantel.fr](http://www.quantel.fr) under *News & Press Releases*).

Total orders for such products therefore currently stand at more than \$13 million, to be delivered before the end of 2019, allowing the Group to proceed smoothly with increasing its dedicated production capacity.

Quantel has already developed and produced several series of these lasers. They are intended to be integrated in a POD positioned beneath the wings of fighter aircrafts for target designation and telemetry applications.

The lasers have been produced for several years for a large equipment manufacturer and can equip in particular the French Rafale aircraft.

---

Founded in 1970, Quantel is one of the world's leading specialists in laser technology for scientific (laboratories and universities), industrial (material processing, process analytics, marking) and medical (ophthalmology) markets. With design and manufacturing facilities in France and the US, the Quantel Group achieved in 2015 a turnover of 62 M€, with more than 75% worldwide, divided into scientific and industrial laser applications (56%) and medical applications (44%). Quantel shares are listed on the Euronext Paris C Compartment. FR0000038242 – QUA [www.quantel.fr](http://www.quantel.fr)
